

BLUE CUBE

Benefits of Rental vs Purchase

01.

Greater flexibility

As your requirements change, so will your demands for additional portable temperature controlled solutions.

02.

Financial planning

Benefit from an ideal syncing of supply and demand, freeing up invaluable cash flow in the meantime.

03.

High quality product

All our units are built in the UK and upgraded with the latest refrigeration and tech' by our own in-house team when the units' rental term concludes.

04.

Link to your existing facility

integrate our units with your current systems and processes, when you need them.

05.

More sustainable

As our units are upgraded, they become ever more eco-friendly, helping your business achieve its own sustainability objectives.
