Maximise your capacity

Our extensive range of portable blast units uniquely have a 3 pallet width, which allows for more capacity. All appropriate units benefit from upgraded refrigerants and technology, carried out by our own team of engineers. With an industry leading customer focus, our range of portable blast units continue to set the benchmark for quality and efficiency.

-  Capacity up to 30 pallets
-  Cross flow or End flow design
-  Blast Freeze, Chill and temper in the same unit
-  Increased air velocity ensures greater efficiency
-  Ground based or elevated solutions
-  Advanced, remote access telemetry system
-  Blast hold function optimised
-  24 hour nationwide support

SPECIFICATION

- ✓ Power requirements - 415v 3ph N+E 100 to 325amps
- ✓ 2 or 3 Pallet Width
- ✓ Pallet capacity 7, 18, 28, 30
- ✓ Temperature ranges from -35°C to +35°C
- ✓ Thermally efficient 100mm high quality insulation panels
- ✓ End Flow and Cross Flow available

LIST OF FEATURES

- ✓ Trapped personnel safety equipment
- ✓ Temperature alarm
- ✓ Secure door locks
- ✓ LED lighting
- ✓ Preventative damage features
- ✓ Retractable curtains
- ✓ Advanced telemetry access option

Standard safety equipment

Bumper Bars

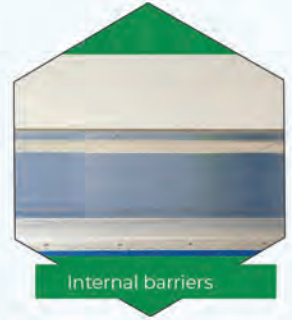

Mantrap alarm

Dump Plates

Temperature alarm

Internal barriers

BENEFITS

- ✓ Impressive and extensive portfolio
- ✓ Once delivered and commissioned, units are ready for immediate use
- ✓ Free consultation and site survey
- ✓ Welcome Pack with information to get the best from your units
- ✓ Full commissioning of every unit from our own experienced and FGAS registered engineers
- ✓ 24 hour, 365 day nationwide service and breakdown support
