efficient

Be more efficient

The Ultra Range of Portable Holding Units raises the benchmark for energy efficiency, delivered through a unique cooling system. Combined with a 3 pallet width, internal capacity is optimised, whilst access to our Advanced Remote Access Management package enables the ability to view an expansive range of performance data and diagnostics where ever you are based.

3 pallet width ensures largest internal capacity available.

Flexible 14, 22, 31 and 37 pallet options.

Operating range -26°C to +26°C

Thermally efficient 100mm high quality insulation panels

LED lighting throughout

Advanced remote access telemetry system

Customer-sourced data proves operational cost savings

Super energy efficient R449A refrigerant used

SPECIFICATION

- ✓ Power requirements - 415v 3ph N+E 32amp
- ✓ 3 Pallet Width
- ✓ Pallet capacity 14, 22, 31, 37
- ✓ Temperature ranges from -26°C to +26°C
- ✓ Thermally efficient 100mm high quality insulation panels
- ✓ Designed for ambient temperature of +32°C
- ✓ Intelligent driven Refrigerant control

LIST OF FEATURES

- ✓ Trapped personnel safety equipment
- ✓ Temperature alarm
- ✓ Secure door locks
- ✓ LED lighting
- ✓ Preventative damage features
- ✓ Quiet units
- ✓ Retractable curtains
- ✓ Advanced telemetry access included

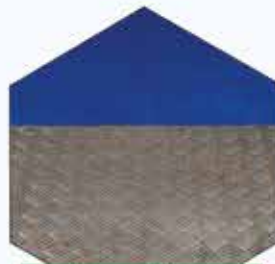

Standard safety equipment

Bumper Bars

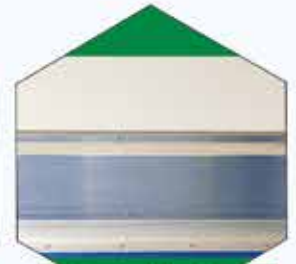

Mantrap alarm

Dump Plates

Temperature alarm

Internal barriers

BENEFITS

- ✓ Impressive and extensive portfolio
- ✓ Once delivered and commissioned, units are ready for immediate use
- ✓ Free consultation and site survey
- ✓ Welcome Pack with information to get the best from your units
- ✓ Full commissioning of every unit from our own experienced and FGAS registered engineers
- ✓ 24 hour, 365 day nationwide service and breakdown support
